THE NEED FOR 3 MORE FLOORS IN CRESCENT ENGLISH HIGH SCHOOL

A] Mumbra/Kausa is a developing town near Thane City in Maharashtra State of India. The area is rapidly growing both in terms of population and residential buildings due to migration of low and middle income group families who cannot afford to pay rising cost of living in Mumbai City. Even though a number of educational institutions are available in the vicinity, but very few of them impart quality education. There are many schools in the area; however, the need for schools providing quality education is glaring. The demand for first level (Nursery Class) admission in our Crescent English High School is so high that, every year we receive applications 6 times more than the number of vacancies.

The area of Kausa Mumbra requires many such educational institutions that provide quality education and can cater to many more students. To fulfil the need /requirement of the area, **we are planning to construct 3 more floors on our Crescent English High School which will help us to educate more than 3000 children.**

←←← Applicants waiting for admissions of their wards through a random lottery system.

B] With growing demand for higher education and limited degree colleges in the Mumbra area, **we propose to upgrade Crescent English High School & Jr. College into a Degree College.** This will provide accessible & affordable higher education for local students, especially girls and the underprivileged. We also plan to add two additional divisions per class to accommodate the rising number of students and reduce admission pressure. This expansion is a step toward fulfilling our mission of providing quality education from nursery to graduation under one roof.

A Humble Beginning ...
